GEORGE R. MURRAY
Nurseryman and Horticulturist.

1921—PRICE LIST—1921

MURRAY NURSERIES

GEO. R. MURRAY, Prop.

REMOVED FROM OREGON, MO. TO

MARYVILLE, MO.

Address all communications to Maryville, Mo.

A CERTIFICATE OF INSPECTION WITH EACH SHIPMENT WE SEND OUT.

These prices in effect December 1st, 1920, and this price list cancels all other lists previously printed.

Where very large quantities of stock are wanted we will be pleased to make special quotations, when possible to do so.

All quotations are made subject to stock being unsold on receipt of your order.

IT ALWAYS PAYS to plant the best nursery stock; especially when you can buy it at our prices—which are on the average, **ABOUT ONE-THIRD LESS** than the prices at which the same class of stock is generally being sold at the present time throughout the country.

Our removal made it **NECESSARY** for us to **TEMPORARILY** reduce our stock to the lowest point in ten years; but knowing good nursery stock, as an expert judge of live stock knows good cattle and having an extended personal acquaintance with a dozen of the best Propagators in the middle west, we were fortunate in securing an excellent lot of stock, in addition to our remaining stock at Oregon, (to be removed this season) which enables us to supply our patrons as usual with strictly high grade stocks.

Owing to the serious shortage of good nursery stock in the United States, (as a result of the world war,) it is very important that orders be placed **as early as possible**; otherwise we, (like all other nurserymen) will be obliged to return orders that come in too late, or fill such orders as far as possible, omitting such items as we are then sold out on.

All honest nurserymen will rejoice when they again have large and complete stocks on hand, which can be sold at normal prices; but it will take two or three years yet to produce the young seedlings and propagating stocks in sufficient quantities to meet the requirements of a normal demand.

It is much better and safer to place your order well in advance and have the stock reserved. We often get orders in the Spring for some varieties on which we are then sold entirely out, and which we could have filled complete (by reserving the stock), if the order had been given us two or three weeks earlier. We never ship the stock until the proper season for planting it out.

Our reputation for "true to name" stock is the best guaranty of our reliability. Nevertheless we hold ourselves in readiness to replace free of charge, any tree, plant or other stock that may prove untrue to label, or defective, on proper proof; or refund the price paid us for any such items. This is the full ex-

tent of our warranty, express or implied, and we shall in no event be liable for any sum greater than the original purchase price of any defective tree, plant, vine or other stock sold by us.

WE SHIP BY EXPRESS AND PARCEL POST almost exclusively. Only the very largest shipments go by freight, and we make it an invariable rule to always **Pack All Shipments Well**, so they will arrive in good condition. No charge for packing. Also, if remittance accompanies the order and same amounts to \$10.00 or more **WE PAY THE EXPRESS**, (or freight if too heavy by express,) to your station anywhere within one hundred miles of Maryville, Missouri.

WE PAY PARCEL POSTAGE to your mail box anywhere in the first or second zone, on Cash Orders of \$5.00 or more for Grape Vines, Berry Plants and other small stock not too large for mailing.

On all parcel post orders under \$5.00 it will be necessary for purchaser to add a sufficient amount to cover the postage. If you send too much we will return the remainder.

On all orders for **other stock**, if less than \$10.00 purchaser must pay the express on arrival.

We prefer not to ship any stock C. O. D.

YOUR CHECK IS GOOD. Remit by check, money order, or any way you like. We are not particular how. As to our responsibility, we refer you to

The Nodaway Valley Bank, Maryville, Mo.

The Farmers Trust Company, Maryville, Mo.

The Zook & Roecker Banking Company, Oregon, Mo.

In writing any of these Banks always enclose a 2c stamp for reply.

OUR LOCATION. We have leased a fine thirty acre tract of land adjoining the State Teachers College and Experimental Farm, and the Wabash R. R., for nursery purposes.

For the **PRESENT SEASON** however, we will do **ALL OUR PACKING** at our place of residence on **NORTH MAIN AND LAWN AVENUE**, where our friends and patrons will find us during the delivery season, and where we will be pleased to have them call at any time they are in Maryville.
